Basketball, Street Hockey To all my boys in shop, we had a blast. P.V. even though we get into fights, remember, we're still good friends. C.I. and C.B. going four wheeling and me falling into the mud. To all the boys on the b-ball team, we went far and will continue. Thanx to my shop teachers, showing and helping me become more of an industrial worker. And to the class of 2004 it has been long and hard, but we made it. I leave my skills to the future b-ball team, continue to make the team good! Leave Mucci the love I give him, thanks for being there as a coach and a friend.

Jobs for boystate graduates I would like to thank all my academic teachers for being there for me all four years. I would like to thank the cafeteria ladies for letting me slip by once in a while for lunch when I didn't have my I.D. I would like to thank my friends for being there for me when I needed the support. I would like to thank Mr.B & Mrs.O for having me in shop all four years. I thank my parents for being there when I needed their help for homework and school problems.

Harry C. and Joe Sbraga you two will be my best friends forever. I thank my girlfriend Marci for helping me on my homework. If I left anybody else out I'm sorry, but this is the most important write up. Mr.B I hope you have a good retirement after the seniors graduate. I really had a great time being in shop with Mr.B & Mrs.O.

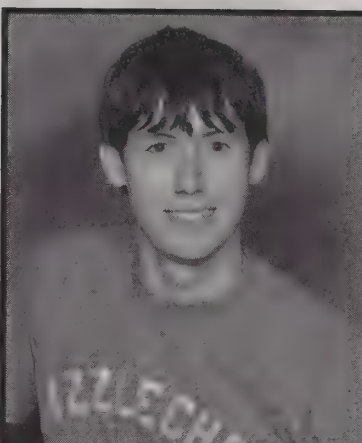

I leave my locker to any future student who ends up with it.

That's a negative! Well except for working and stuff that interest me. Four already? Well thank God I made it! It seem like only yesterday I was in 4th grade getting beat up by some girl named Big Bertha who wanted my lunch money! No wait that never happened to me! But I did start using deodorant

that year, quite exciting, NOT! Along the way you meet friends and throw a couple away. I know it took me many years to find my best friend but it was worth the wait! "Boyfriends come and go come and go and come and go and go 6 or 7 more times" haha Sarah remember the sights of Woburn? and the hand full of change to get the gas? Those were some good times. Vance the ice cream was nice, "go spice girls!" teehee. Nick Cote the conversations were deep but never boring, maybe you should become a psychiatrist because I think you should! Dan Bagley you were one of my best friends and I love how you support me. Craig and Nick Maguy I love the hugs boys! Jon Aquafresca I'll never forget Loco, Dan Carreiro you are just "The Man" thats all I have to say about that. Nick Bratko thanx, just thanx! and "It all seems so fast!" I leave nothing to no one, I had to make it to this point on my own you should too!

I love you both! To my brother, I love ya! To my sister, you've been through so much, and I'm sorry for that. But I love you, remember that! To my brother-in-law, thanks for helping me, when I need it. I love ya! To my niece and nephew, always remember that Auntie loves you both! To my best friend, Andrea, I love you. You've been there for me since third grade. Thank you! you've made my life so much better, and Andrea, no I don't have a Canadian pickle! To Maryrose and Ray, thank you for always pushing me to do my best! I love you both! To my Granma, RIP! I will always remember our wonderful times together! To my niece Elizabeth, RIP! Dirtbiking, chillin with boys, girls, anything outdoors. The class of 2004 has been a success for many and a great accomplishment for others including me. The machine shop experience has been great. I would like to thank all of my friends in Machine shop. Dave-a-manid, D-pidds, Heath-a-maner, Johann and E-man. All the sophomores Tiffany, C-money, Sanchez, and other sophomores that were there for me when I was angry. The time that spent at Monty Tech gave me a lot of headaches but made me more aware of the stuff around me. While I was here, I met a great rockband by the name of Muted. I also realized all different styles and personalities. People are friends, girls are great. Have fun, party. Don't let people judge you or tell you what to do. I hope that all the other classes have as much fun as I did.

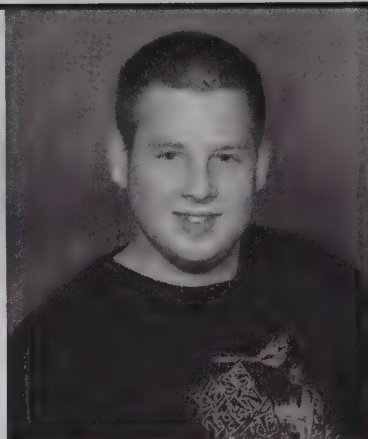

First of all I'd like to thank God. He has helped me come a long way, which brings me to my mother. Without you, I wouldn't have made it this far. I know we've had our disagreements but you still stuck by me and without you I wouldn't have been the person I am today. I thank all my brothers and sisters, I love all of you too! I thank A.H. for being such a great friend. I thank ALL of my friends, you know who you are, I love you as well, don't forget me. I also want to thank my shop teachers, you both have helped me through a great deal. Thanks to Mr. Candlelet and any other teacher who has helped me through the four years when times were rough. A special tahnks to Ms. Lavengood. Thanks to everyone who has made my four years fun. That includes those of you who hated or just disliked me, you people really made H.S. fun. Thanks to anyone I may have missed. To the class of 2004. Que le vaya bien! And Congratulations!

Poetry, Art, Reading, Music (guitar, bass, drums and singing) During these past four years at Monty Tech, my life has changed drastically. I've met many friendly and unfriendly people here. I thank the people that gave me respect, and I forgive those who ridiculed me. I know that I may never see some of you again. Many of you will succeed in your trades, move away, and start your own families. I wish all of you the best of luck in your future lives and leave you all with one message. Keep yours minds open to philosophy. Something unexpected will happen soon. I would like to personally thank all of the Monty Tech teachers and give a special thanks to the best teachers I've ever known: Mr. McLinden, Mr. Newingham, and Mrs. Schmidt. Thank you for gving me the knowledge that I now need after graduation. Thank you for changing me.

These four years at Monty Tech flew by so fast. John A, Dan C, Katie C, April H, Franz S, Shawn W, Alicia R, Kathy S, and my best pal Tracy M. They all made it a fun four years for me. They have always been there for me if I needed help with something. I plan to be a director and make horror movies. Thanks to all the teachers who helped me with anything and whoever else helped me, thank you. I am just happy that I'm finally out of here, its been fun but its about time that all of us got out fo here. Congrats to the class of 2004.

Lawn darts, chess, speed ball, Marco Polo, Bad Mitlen, Lacross. I don't know what to say really. All I can say is, it went by really fast and I still haven't matured yet. Thank you to all the people that didn't categorize me and gave me a chance to express my feminine side. Also, thank you to the teachers that treated me like a friend instead of a student. One love for PRK, element skateboards, DC shoes, Eastern Boarder, Spoo Crew, Front Line, Indy Posse, and Jackson 5. So in the words of James Bond, "The world is not enough", and good luck to everyone in the future. I leave behind everything and anything you want to take.

Yearbook Editor, VICA states Only 3456-3440 hours left, (not that I've been counting or anything) and hating the homework, pop quizzes, finals, and all that fun stuff every minute of it! Then I realize, "I don't even know what I'm gonna major in!" So many choices so little time! Where did it all go? Then I started wishing I was a freshmen again. CRAZY huh? SNAP OUT OF IT!!! Whew ok, I know I'll be fine, but get this, I think I'm gonna miss this school, weird huh? I find myself feeling nostalgic for this crappy mystery-meat, the teachers droning on, the mountains of homework, and everything else I've spent so long hating. As much as I'll miss the constance and familiarity of Monty Tech and my friends here, I plan on having a blast for the rest of my life, no matter where life takes me. All I can say is, our ten year reunion's gonna be very interesting. I leave my work ethic and good will to Sonia Beureguard.(Keep an eye on Mr. H's glasses for me) Love ya.

"Eight word's the Wiccan rede fulfill, and it harm none, do what ye will." There are a lot of people I need to thank, other than myself with my hard work and dedication that have helped me to make it this far. First are my daughter, Brianna, and my fiance' Matt, for showing me love and always believing in me. Everyday I come home to their smiling faces, it makes me push that much harder for our future. I also need to thank all of my family for all of the support and faith they had in me. And last, but not least, I need to thank all of my shop teachers. If it wasn't for you four, I would not have any of the knowledge that I carry with me today. I would also like to thank my best friend (K.S.) for always being there for me. Thank you all so much for everything you have done for me. I leave behind all of my good grades to my little sister's to show them no matter how many problems are thrown your way, you can always make it. And Brianna & Matt, I give you the rest of my life.

Going to school was enough. No extras for me please... The time in this school went by so fast. We've had lots of fun falling on the floor in shop, huh Stephanie?? Shop wouldn't have been the same if you weren't there. We'll probably still be getting into trouble together when we're thirty. We love the eighties, don't we Cassandra? We still gotta go clubbin' someday... Billy, I love you so much. A lot has happened in the time we've been together, thanks for everything. Mwaa! To everyone else I left out, (you know who you are), I hope all goes well for you in the future. We're finally graduating everyone!! Its about time too. I'll see you all on the dark side of the moon... "I would like to say this. Tardiness is not something you can do on your own. Many, many people contributed to my tardiness. I would like to thank my parents for never giving me a ride to school, the L.A. City bus driver who took a chance on an unknown kid and last but not least, the wonderful crew from McDonalds who spend hours making those egg McMuffins without which I'd never be tardy." - Clueless None

"All I ever wanted was to pick apart today put the pieces back my way. " Skateboarding, break dancing, and listening to music. The time I spent at Monty Tech I have to admit was fun. The people I have met along the way and the people I already knew, you have put a smile on my face, that smile I hate, I appreciate all you have done. I came to Monty Tech to learn a trade doing plumbing. After 4 years of high school I have delt with the frustrations. After all I have been through with stupid girlfriends it only made me more smart and wise. I couldn't be more satisfied. To the shop teachers, most importantly Mr.K. for believing in me from the very start. Thanks for teaching me something I love to do. It was fun messin' with Dolen. You're all good teachers though. I don't know where I am gonna be in the future, I don't care. This is my dream. My life.

I'd like to give a shout out to everyone I know, most importantly my fellow Info Teachers. Thanks for all the great memories, and hysterical times we had in class. I love yo all. I also love my fellow non-info teachers. I'd like to give a special shout out to Venessa for always making me laugh, remember the time we were playing with the camera in class and you snorted and we kept playing it over and over, we nearly wet ourselves! And to Ali who has always been there to listen to me complain about you know who, and who I always gossip with. Also, to Adreanne, Alicia, Nick, and Reece remember how we first lost that weird kid as soon as we got on the highway and we were all relieved, and when we got lost and had to ask that English guy which way to the beach. Those were the times. I hope I can keep in touch with everyone I've met here at Monty Tech I love you all XOXXOXO I leave my perverted knowledge, and ability with almost anyone.

Football 1, 2, 3, 4 Volleyball 2, 3, 4 Jobs for Baystate 3, 4 Thank you Mom and Dad for all your love and support. You always put Jenifer, Tammy, Shane, and myself first. We are very lucky you taught us that family is first and important. I thank Mr. Beauregard and Mrs. Oliver for all your patience in teaching me life skills that I will always keep with me. You kept telling me to keep trying until I succeeded, which I did. Thank you to each teacher that helped me at Monty Tech. You went the extra mile for me, especially Mr. Brennan, Mrs. Twichell and Mrs. Anderson. I will miss Mrs. Kelly's smile and the jokes while working in the hunchroom. Mr. Szulborski I am lucky to call you my friend. You will always be a thumbprint on my life. At football, I learned it is not the size of the dog in the fight, but it is the fight in the dog. Thank you Coach Mahon for believing in me and teaching me that being scrappy is a football skill. I leave my football jersey #34 to a future scrappy player.

I started taking flying lessons at Fitchburg Airport when I was 14. I am almost ready to get my pilots licence. One of my greatest accomplishments was my solo flight last year. I was a little nervous not to have my instructor next to me, but my nervousness disappeared and I was enjoying the beauty of flying. I also have a hobby of building and flying remote control planes. I belong to a club and we hold a couple of events a year. I hope to have a successful career in the future, hopefully in aviation. I leave my humor to Mr. Cormier and mind boggling questions to Mr. Kamila to ponder over.

snowboarding, wakeboarding, and paintball In this blackout inertia will hold our thoughts. And the next exit sign offers no light to see by. Can we cast our shadows alone in the dark? I can't see without you. When the world comes crashing down. Part with it. Start again. When the world comes crashing down. These notes will fold themselves. Standing at the margin's edge to see where the daybreak ends. You can find compassion here. But the page turns too fast. We fell in this hole that opened up. Giving up on hope. Living without love. And we still type black lines. When the world comes crashing down. These notes will fold themselves. Adjust the aperture to focus on the negative. Like phosphors in the darkroom ignite. Like dodging faces in the corner of the print. Frame by frame this hole is opening and we fall in. There is no such thing as whole. There is a hole in the world.

-Thursday- A Whole In The World In all the years all I have is my own determination. The only person that can get you through life is yourself and your own will to drive yourself. I leave this to you.

Ice hockey, VICA Seems like just the other day I'm walking into building for the first time. Now nearly 4 years later I'm sitting here at my desk in the Tec office writting this paper up. You plugged in the network cable into it works, what fun is that?

Science I started my freshman year here at Monty-Tech my thoughts toward school have been nothing but wanting to graduate. Now it is my senior year and I am thinking about what is going to happen after graduation. I met so many people at this school and I don't expect to see most of them after this year. However, some of the most people in my life I met at Monty-Tech. The kids in my shop became my best friends. You guys are awesome. It was also at this school that I met my girl friend who means so much to me. I love you Jess. Most importantly Monty-Tech is where my singer Andrew and I met our drummer Rat and bassist Sevey. It is because of this school that we created this band and now create the music that gives me chills and makes me feel like nothing else can. Rat, Steve, and Andrew, I love you guys, you are my brothers. No Matter how much I always say I hate school, I am going to miss the environment of Monty Tech. I leave behind my guitar strap that I lost at the 2003 Battle of the Bands to whoever found it and never told me.

Basketball It's not over. If you meant what you said then I'll see you again. Live it up boys, but never forget what you promised yourself. Enjoy the sun kid. Come find me and teach me how to surf. Search forever and if you never find anything you'll find everything. Start your life for the right reasons, and if you don't have a reason, wait. One day you'll be right about everything. You're the love of my life, my entire life. To the two people who taught me everything, I'd like to say thank you.
Advice: When someone asks you a question, tell them that it's a revolution and they wouldn't understand. When times are tough don't worry about it, I won't worry you. When you're tired sleep. When you're hungry, eat. When you're thirsty drink water. It hydrates better than soda or juice. If you're feeling homesick just remember that if you were home you would want to be somewhere else. Fumancho. If you're standing on the edge and you're ready to jump just remember to take out your wallet and cell phone because you don't want them getting wet.

TB Golf, Football, Hockey These four years have gone by fast. each year has been a learning experience for everyone. There is not one person who can't say that high school wasn't fun. Where to begin, the food was the best a \$1.25 could buy. Only once in your life do you get to experience the joy of being in highschool. I wish I did better than what my grades show. I wish i could start over in freshman year. My only words of advice would be to make decisions that you canlive with for the rest of your life. We have all had our good times and our bad times, but those who can hold onto the good times can succeed. Those who dwell on the bad only sit and remember the bad times of the high school years. I only hope that everyone can succeed as high as the sky, because i will not rest until I can buy whatever I want whenever I want it. I bid you all a good life and hope you can be what you have dreamed about. I will leave my intelligence to Travis Irish. Leave it to Beaver.

Varsity Ice Hockey Peace is but a shadow of death, desperate to forget it's painful past... Though we hope for promising years after shedding a thousand tears, yesterdays sorrow constantly nears. And while the moon still shines blue, by dawn, it will turn to a scarlet hue. So make it the best of the times you have. When its done, you can say you had some fun. Thanks to my mom and dad and everybody else that was there to help me.

The wind wipped feircly across the top of the formation, pressing his cloak tightly against his back. Dark eyes scanned the landscape. Arms shrouded in black silk, crossed tightly against his chest. A black lleather boot was tapped impatiently on the hard rock. Where does one go, when on th threshold? He thought to himself. Does one cling to the old world? No. Silently answering himself. We move on, take up the quest of living. He nodded doruptly, as if agreeing with himself. At this he took the final step from the formation. That black cloak whipping as he plummeted. And suddenly, as if plucked from the materia world by some unseen force he disappeared. I leave my spot where I stand in the hallway in the morning.

Industrial Tech, all of you guys have been great and I hope you all had as much fun as I did. I mut say spending four years as a dork wasn't easy but i think I left my mark. To my family you've all been great. Larissa although we fight alot I couldn't ask for a better sister. Mom, Dad, and Tom thank all of you for all your help and support. Dave-O- your a little young to understand this but your the coolest little brother in the world. Jon, you've been there through thick and thing and have been more like a brother than any cousin ever could. So to all I've mentioned and all I haven't, I'll miss you forever. People come and people go but memories will never leave. I leave wrestling to anyone with the guys to do it. I leave Industrial Tech to anyone willing to have the best four years of their life.

Newspaper and Yearbook It's hard to believe that high school is over already. It's funny how every day was long and every week felt like a month, yet looking back four years went by in an hour.

I want to say goodbye to everybody who made high school more fun than ever expected it to be. (Megan, Alicia, Tammy, etc...) I would also like to thank my parents for pushing me to do my best, even though that wasn't wat always happened. "How did it get so late so soon? Its night before it's afternoon. December is here before its june. My goodness how the time has flown. how did it get so late so soon? You can steer yourself anyway up! You'll never be seeing great sights! You'll join the hight fliers, who soar to great heights. Wherever you fly, you'll be the best of the best. Wherever you go, you will op all the rest." - Dr. Seuss Goodbye and Goodluck to all in the class of two-thousand-four.

Mega-phone So many people to thank in so little words. First of all I would like to thank my family for all of their support and guidance. You have been there for me no matter whats happened, in the past. I would also like to thank my shop instructors all three, for believe in me and for encouraging me when times got rough. I'll have to say that I'll miss all of my fellow classmates and of course my "cosmo girls". You've all been very helpful and understanding. Good luck in the future to all of you I would like to recognise my faithful and devoted boyfriend who has stuck with me for five years and help support me and our daughter Ariel Anne. He has given me confidence to do something with my life and helped me get through highschool. He is the best father to our daughter and I love him for that. I wish everybody the best of luck in the future and to be careful and take care of yourself. Especially Tasha. You better be careful with those "Boston boys". The last thing i like to mention is my daughter Ariel. She is my inspiration to extend my education and career to give her the best life she deserves and that is why I put her picture next to my senior write up to show my appreciation. I leave Fred to Mr. Baer and Ms. Kelley.

Xai Thao My name is xai. Most people have trouble spelling it and pronouncing it. I wish I had a plain and simple name(American name) like everyone else. Maybe I should change it? Nah, I think I'll keep it as it is since its my real name. Time flew by so much, it seemed to me like yesterday that I'm a freshmen. But really, senior year is about to end. My first two heroes of my life are my parents, they set a good model for me. I want to tell them that they're the greatest parents I ever knwon. Another person who had makes me feel special and loved is Chor Yang. He's a loveable partner and also a great father. We have a happy and enjoyable life together with our two adorable children. We enjoy every moment of life together.

Drama (much love) Wow, where to begin; four years gone already? No! I'm still a freshmen! It's not time for the real world! Can't believe it. there's so much to say and only a few lines to say it. The regular routine will change, and the faces won't be the same, but I won't ever forget all that I've had in these halls, in the classrooms, in shop. Andrew, Alicia, Megan and all the rest, I'll miss you, and you've all had a big impact in my life. Anthony, sweetheart, you've taught me so much, who I am and how to be loved. Thank you. I love you. To Mrs. Davis, you inspired me so much. I hope to greet you next as a fellow english teacher. To Mr. Johnson, my biggest fan. You've taught me more than could say, see you on stage! To my shop teachers, thank you for your patience! Peace, love and happiness, and I'll miss it all! I leave the beautiful stage to all the wonderful aspiring actresses and actors who have the same dream as I have! Good Luck!

sleeping, drawing A few most months and we'll be out of here, finally. It really didn't seem like it's been four years since we started here. But it has, and now we're older and I guess smarter? I've made more then enough friends over the years that are all so wonderful. Like Jess, bowling and uno is always so much fun. Even though one hand of uno seems to last hours with us, how can we make such a simple game so competitive? And oh, the drafting people. Sooo many hours stuck in that room. It would've been much more broing without you guys. I hope we don't stop talking after we're out of there. Sophmores don't be too afraid of T. It won't be too long until your on our side of the room. Now it's time to graduate, so class of 2004 lets leave this place for good. I'm leaving Mr. Sniffles to Phil, don't give him anymore diseases. And I'm giving lost of luck to the sophmores.

Frn's we were the perfect team in shop. Winslow, you were just the friend who was always there. Tonka, we knew each other so well and did great. Parker, you just stepped it up, and did you best. Tim and you really held us together giving encouragement. I would just like to thank you all for a great year.

"When Darkness falls and reality sinks in the reassurance that your life has meaning pushing you forward, closer to the light at the end of your tunnel." Ice Hockey, Skills USA VICA, Peer Mediation. Wow, its this time already. I can't believe it. These last four years at Monty Tech. have been some of the best experiences of my life. I hope to go on to college and further my electrical career. I am going to miss being able to hang out with my friends everyday but life goes on. I would like to thank all my teachers I have had the past four years at Monty Tech. I appreciate everything you have done to further my education. A special thanks to my shop teachers, Mr. Johnson, Mr. Carnavino, Mr. Tufts, and Mr. Cormier. I would also like to thank Mr. and Mrs. Baer for training me and making me all I could be in the skills USA VICA program. I would like to leave the class of 2004 with the hope for success and pride for the rest of your careers and lives. Good Luck and Gods Speed.

Learning is the beginning of wealth. Learning is the beginning of health. Learning is the beginning of spirituality. Searching and learning is where the miracle process all begins.

While you are in school, make sure you get the information. What you think about it, that's up to you. What you are going to do with it, that will soon be up to you. But while you are there, make sure you get it. In fact, my advise is - Don't leave school without it!
